LG Hospitality TVs - Hotel & Short Stays

LG Hospitality Solutions

LG Hospitality TVs are designed for Hotels to customise messages to guests, design Guest User Interface (GUI), and automatically erase login details upon check out. Server is required for integration with Hotel PMS (i.e. Oracle). Besides the TVs, other products are essential for full AV functionality. They are:

- Hospitality Server (On-Prem or Cloud)
- License per TV
- Built-in Casting
- PMS Integration

4K UHD Hospitality TV

UR761H | UR765H
43" | 50" | 55" | 65" | 75"

- Slim Design

LG SMART TVs - BTR, PBSA & Long Stays

LG Hospitality Solutions

This TV is similar to the residential ones, but for commercial purposes. It comes with a minimum of 3-year warranty (up to 5 years) and includes main apps such as Netflix, Amazon, YouTube, etc. In terms of privacy, Hotels need to delete all login details manually once guests check out. This is an affordable option, with one-off cost only.

4K UHD SMART TV

UT801C

43" | 50" | 55" | 65" | 75" |
86"

Key features

- Built-in Google Casting

Enhance Creativity and Efficiency with Cloud Content Management

LG SuperSign CMS is a comprehensive content management solution that simplifies the process by offering a wide range of features.

With a network connection, you can operate the display from any location at any time. Equipment from different locations can be centrally managed, improving efficiency.

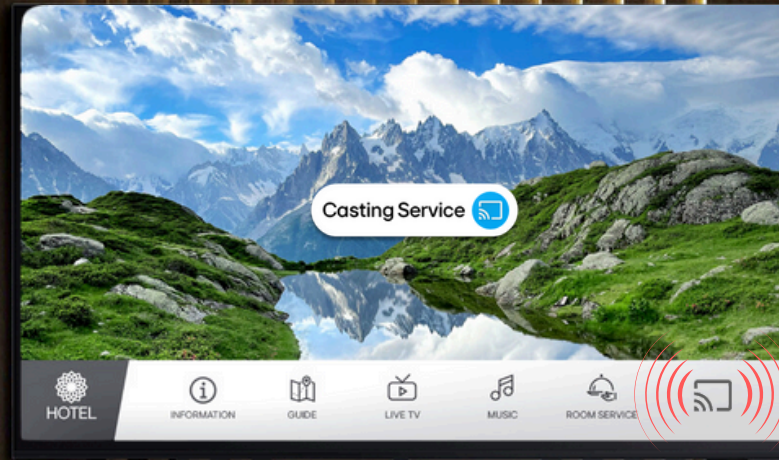

Users can easily create, edit, and schedule content for distribution across various LG devices. The software also allows for real-time data display by connecting to external databases, making it ideal for showcasing information like weather conditions or flight status updates that can be automatically updated and shown in real-time.

Cloud server-based solutions have lower initial costs compared to on-premise solutions as they don't require physical servers. Professional content partnerships allow you to access a vast collection of templates and other creative assets that cater to their unique business requirements

* Design, Art, and Music services are only available to customers with paid subscriptions.

* Please be aware that additional purchases are necessary to access these features.
