The Creation of the LG One:Quick Series

Our lives are an endless succession of contact and communication with one another. May it be family, friends, co-workers, or business partners, we are constantly interacting with people no matter where we are.

Knowing that this process of contact and interaction is inevitable, LG wanted to make the experience easy and pleasant. LG examined in fine detail even the slightest inconveniences we may experience, and this is what led to the creation of the LG One:Quick Series.

As the name suggests, the LG One:Quick Series allows you to do many things you want simply and quickly all with one device. Now we can focus on life itself and spend our time on things more valuable and important.

A Wonderful Life only possible with the LG One:Quick Series.
Welcome to a One:derful Life!

The Pursuit of a One:derful Life with the

LG One:Quick Series

We can freely interact and communicate without any limitations to time and space. We can talk with faraway family as if they're right next to us, meet teachers and friends without going to school, and hold meetings with important business partners just as we would in person.

The versatile LG One:Quick Series includes a variety of features all-in-one empowering you and your space with new capabilities and possibilities.

Not only does the built-in camera and mic provide clear and vivid video calls and meetings, but you can also do numerous tasks interactively with the touchscreen and share screens wirelessly. It will save you from inconveniences you did not even notice before.

Experience the simplicity and convenience of the LG One:Quick Series.

The LG One:Quick Series will make your life complete.

LG One:Quick Flex 06 - 15

LG One:Quick Works 16 - 27

LG One:Quick Share 28 - 33

LG One:Quick Flex

We each have different lifestyles at home according to the generation we were born in, what we like and dislike, and the roles we play in society. These days, this is becoming more and more diverse and segmented.

The LG One:Quick Flex solves the little inconveniences we have been living with without knowing and makes our everyday life in every part of our home, including the living room, bedroom, study, and kitchen, more comfortable and enjoyable.

We can now take clear and vivid classes with teachers and classmates at home, talk with faraway family as if we're with them in person, take care of our health by receiving personal training from a professional trainer, follow a famous chef's recipe to cook a delicious meal, and enjoy content in high-definition in our own personal space.

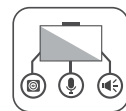

The LG One:Quick Flex is just one addition to your home, but it will change every area of your life.

Make your Life more One:derful

LG One:Quick Works

Video conferencing has long been a fact of life, but with the way we work today, it has become downright essential and practically unavoidable. For everyone sick of scuffling with cables, spotty connection, terrible mic pickup and out-of-focus webcams, there's thankfully now an easier, more productive way to conduct video calls and meetings at the office.

The ideal productivity tool for the contactless era, LG's category-creating innovation is bringing greater efficiency and sleek, modern styling to businesses of all types and sizes. Let's take a look at how it can boost efficiency and productivity in your workplace.

It doesn't take a lot to make your business One:derful. The All-in-One video conferencing display, LG One:Quick Works, is all you need.

Make your Business more One:derful

All-in-One Video Conferencing Display

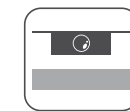

Connectivity issues are the enemy of smooth conference calls. The complex and often time-consuming task of connecting cameras, mics, speakers, laptops, and projectors can easily derail your meeting schedule or make an important presentation fall flat.

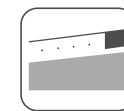

One:Quick Works avoids all such issues by integrating everything needed into a single, stylish package. It boasts a large touch-sensitive display, Windows-based PC, crisp 4K UHD camera, high-quality microphone, built-in speakers, digital whiteboard and video conferencing apps.

with LG One:Quick Works

Built-in Camera
4K UHD, 120° Field of View, Electronic Pan-Tilt-Zoom Camera, Automatic Speaker Tracking, Auto Shutter ON/OFF

Built-in Microphone
6m Voice Pickup, Automatic Speaker Tracking and Noise Cancelling

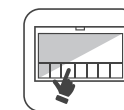

One:Quick Remote Meeting
Pre-installed Video Conferencing Solution

Multi Touch
Equipped with In-cell touch, support 10 Points of Multi Touch

Annotation
Directly annotate on meeting documents

Excellent expandability based on Windows 10 IoT Enterprise (Value)

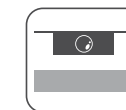

* Screen images simulated.
* Touch pen provided (1 ea.)
* Dedicated apps required for making notes and drawings (MS Whiteboard app ready)
* Voice Recording may not be allowed when using the video conferencing app.

Smart Auto Focus

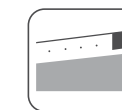

Still trying to figure out who is saying what, straining to hear what's being said, and huddling around the microphone when it's your turn to speak?

The high-gain mic can clearly capture the voice of someone sitting or standing up to six meters away and uses noise cancellation to minimize any background sounds. Meanwhile, the 3,840 x 2,160 resolution camera automatically focuses and tracks the speaker.

Built-in Camera
4K UHD, 120° Field of View, Electronic Pan-Tilt-Zoom Camera, Automatic Speaker Tracking Auto Shutter ON/OFF

* All images in this brochure are for illustrative purposes only, and may differ from the actual products.

You can have convenient meetings with the easy and simple wireless screen sharing solution, LG One:Quick Share, together with LG Digital Signage.*

Freedom from screen sharing cables, simplicity of use without additional transceiver devices, and the intuitiveness of sharing screens by pressing the button.

These are all enabled by One:Quick Share.

Experience wireless connection with one small change

Make your Business more One:derful

* LG One:Quick Share is compatible with select LG Digital Signage models.

Wireless Screen Sharing Solution

What are the difficulties when sharing your PC screen to the meeting room display?

Do you have to move your seat because the cable line is too short?
 Do you always trip over extended cables?
 Is your meeting room a mess because of tangled cables?

with LG One:Quick Share

LG One:Quick Share and LG Digital Signage* enable you to share your screen by pressing the button on the One:Quick Share USB dongle. Experience the convenience of going wireless with easy pairing to the compatible LG Digital Signage and laptops by plugging the USB dongle, and showing up to 4 PC screens at once on the paired signage. In addition, you can remotely manage the basic functions (volume, picture mode, auto brightness, etc.) of the paired signage with the One:Quick Share PC app.

Easy Pairing
with the compatible LG Digital Signage

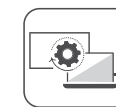

Plug & Play**
Connect the USB dongle to the PC for screen sharing

Wireless Screen Sharing
by pressing the button

Embedded Wi-Fi***
No need of additional transceivers between the USB dongle device and Signage

Remote Signage Setting
with app installed on PC connected to One:Quick Share

* LG One:Quick Share is compatible with select LG Digital Signage models.
 ** At the very first time, personal PC needs to install One:Quick Share PC application by connecting the dongle device.
 *** SoftAP of LG Digital Signage needs to be activated at Network Menu, and WiFi performance may differ to environment.
 * Screen images simulated, and cradle accessory is sold separately.

How to Use

LG One:Quick Share, compatible LG Digital Signage, personal laptop

Step 1

Pair with LG Digital Signage

Connect USB type dongle devices to compatible LG Digital Signage models and then disconnect them

Step 2

Plug the USB Dongle to Your PC

Simply share your personal PC screen to the LG Signage by connecting the USB dongle device to the PC *

Step 3

Press the button for screen sharing **

With Short Clicks – Share the PC screen, or change to another PC screen
With Long Clicks – Start multi-sharing mode which can show up to 4 PC screens on the Signage at the same time

Value Added Features

Setting Without Remote Control

Without a remote control, you can adjust the default setting values of the paired Signage (volume, picture mode, auto brightness, etc.) on the One:Quick Share PC application, as well as further edit the agenda/note, presentation settings displayed in Office Meeting Mode.***

Screen Manager

Meeting organizer with admin privileges can manage screens shared on the Signage. You can change the order of the split screens, stop screen sharing, or even select the screen among other connected screens.

- * At the very first time, personal PC needs to install One:Quick Share PC application by connecting the dongle device.
- ** SoftAP of LG Digital Signage needs to be activated at Network Menu, and WiFi performance may differ to environment.
- *** Users can enable Office Meeting Mode at EZ Setting menu of the Signage.
- * Screen images simulated.
